

## Expedited, LTL, TL, Power Only & Aggregated Freight

Of all of the transportation services offered by Chief Truck Lines, none compare to our commitment to getting the job done correctly nor to communicating effectively with our customers. We often are called upon through word-of-mouth because someone has heard about our willingness to work under difficult conditions. The U.S. Post Office does not have a monopoly on driving through rain, sleet and snow. This is exactly what we do with 48' and 53' trailers throughout the urban, suburban and rural areas of our freight lanes. It takes much more than the required equipment for some jobs; it takes commitment.

Click on the tabs below to learn more about each service category.

{slide=Expedited Freight - Same Day & Overnight Delivery}

"I need the shipment to arrive yesterday!" We've all been up against that one. We don't say we can deliver yesterday, but, we can come close. We will pickup for same day or next day delivery ...either across town or in the next state. It's a specialty of ours. Our expedited service has often kept production lines rolling and work crews working as we have delivered freight in a timely manner for shippers in a time crunch. We will use all of our resources to meet your deadlines and stringent shipping (arrival/departure) requirements. And, we provide instant delivery confirmation as a courtesy.

{slide=Less Than Truckload (LTL) and Truckload}

Many of our customers shipments do not fill out a 48' or 53' trailer. Therefore, we will pick up Less than Truckloads. Whether you have a large or small shipment, weigh out or bulk out we can accommodate any shipment not requiring specialized equipment. We can also provide smaller, lighter "straight trucks" which are more efficient and economical for smaller shipments. In addition, our Air Ride tractors, trailers and straight trucks provide special care for fragile shipments.

{/slide}

{slide=Drop Trailer Service} Many trucking companies throughout the United States have stopped offering "Drop Trailer Service." However, we understand the importance of this vital service to many distributors and manufacturers. We will drop your trailer or our trailer: empty or loaded; one way or round trip for you to load/unload at your convenience. It's up to your discretion and a service we are proud to offer.

{/slide}

{slide=Power Only Trucking} Chief Truck Lines provides "Power Only" trucking, complete with tractor and driver to pull customer owned equipment. This can include dry van trailers, flatbeds, exhibition trailers, special event trailers, chassis, containers, other special equipment trailers and step decks. If the equipment is roadworthy, we can probably handle it. This service can be either one way or round trip

{/slide}

{slide=Aggregated LTL Trucking}

Many customers request pickup of LTL shipments at multiple locations for delivery to one destination. We pickup shipments until complete aggregation is accomplished and deliver one single load to the ultimate consignee. Conversely, we will pickup a truckload and deliver it to multiple destinations until empty. Aggregated LTL loads can be accomplished on Chief trailers or on customer trailers {/slide}
